Raising a Child with Albinism: A Guide to the School Years explores a wide variety of topics through the research and knowledge of professionals in their fields of study: What is an IEP, and how do you prepare for your team meeting? What assessments can you request for your child from the school district? What is the Expanded Core Curriculum, and why is it important? What is the role of an Orientation and Mobility Specialist? How can you support your child in his or her transition to high school and independent living?

The National Organization for Albinism and Hypopigmentation (NOAH) was founded in 1982 to offer information and support to individuals with albinism, their families and the many professionals who work with them. NOAH's mission is to act as a conduit for accurate and authoritative information about all aspects of living with albinism and to provide a place where people with albinism and their families can find acceptance, support and fellowship.
