

## CALL FOR PROPOSALS – SUMMER 2021

NOAH is proud to announce a request for proposals to support research on the visual system in albinism. Proposals focusing on research in all types of albinism will be considered. Proposals may utilize cell or animal models of albinism and/or human patients with albinism.

**OUR RESEARCH PRIORITIES:** Vision / visual system

1. Elucidating pathways/mechanisms (molecular or systemic)
2. Therapeutics
3. Biomarker development

### FUNDING AVAILABLE:

We expect to fund up to a total of \$100,000 in grants, distributed in the following programs:

- Established Researcher Program: \$50,000 (\$25,000 per year for two years)
  - Intended to provide bridge funding for or to support expansion of existing projects from established researchers
- Pilot Grant / New Innovations Program: \$25,000 (\$25,000 given in one lump sum)
  - Intended to provide funding to generate pilot data for new projects from junior or established researchers

### ELIGIBILITY:

Applicants must hold a Ph.D., M.D., D.M.D., D.V.M., D.O., or equivalent degree and have a faculty position or equivalent at a domestic or foreign: non-profit organization, or public or private institution, such as a university, college, medical school, hospital, research institute, or laboratory.

Letters of intent will be reviewed for scientific quality and relevance to NOAH's research priorities. Proposals with high translational relevance will receive priority consideration.

### KEY DATES:

- Monday, July 26, 2021 at 5pm: LOI Form Due with Expression of Interest Video (2-3 minutes) or Written Summary (500 words maximum)
- Monday, Aug 23, 2021: Notification of selection for Full Application
- Monday, Oct 25, 2021: Full application Due
- January 2022: Grants Awarded
